

Responses to Questions Part III:

RFQ 10-0122-EMAIL

The following questions were presented on or before January 20, the last deadline for vendor questions.

This document is also incorporated into the original RFQ with the other Questions and Responses documents – Parts I and II, as well as the Addendum to the RFQ.

**These are the final questions that will be answered.
All proposals are due January 29, 2010, by 4 p.m.**

Q: Does the Superior Court have 10 GbE in its infrastructure?

A: Currently, the Court does not have a 10 GbE infrastructure implemented through the core network, but is something we are currently exploring. Should that be a requirement of using vSphere HA then the Court will do whatever is necessary for the deployment.

Q: Can we verify that VMware HA is actually the option you want vs. Microsoft HA (DAG)?

A: The Court desires VMware HA.

Q: Will the Court be upgrading to Unity 8 once it's released in a separate project?

A: The Court plans to upgrade to Unity 8. The upgrade could take place before or in parallel with the Exchange 2010 migration in a separate project with AT&T.

**THE PROPOSAL DUE DATE HAS BEEN CHANGED TO
JANUARY 29, 2010, 4:00 P.M.**

Please see the Addendum to the RFQ posted on the court website.
